PRE-MEETING COURSE

Stereotactic Breast Biopsy: An Introductory Course

Wednesday, April 26, 2017

Course Moderators: Carrie Thoms, MD, Victor Zannis, MD
Faculty: Jodi Carter, MD, Souzan El-Eid, MD, Sara Fredrickson, MD, Scott Karlan, MD, Jocelyn Rapelyea, MD, Howard Snider, MD, Carrie Thoms, MD, Victor Zannis, MD

Course Description:
This course is designed primarily for the physician with little or no prior experience in stereotactic breast biopsy. Through didactic, hands-on workshop, and clinical case presentations, the participant will be provided with a basic knowledge of indications, principles, and technical aspects for performing stereotactic-guided percutaneous breast biopsy.

Course Objectives:
At the conclusion of this course, participants should be able to:

• Demonstrate the basic operation of appropriate equipment for stereotactic biopsy
• Summarize general principles for stereotaxis and radiation safety
• Understand the indications and patient selection for stereotactic biopsy
• Recognize variation in breast pathology for image-guided biopsy
• Demonstrate the technique of stereotactic breast biopsy on breast phantoms

CME Information:
The American Society of Breast Surgeons designates this live activity for a maximum of 7.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

MOC Information:
This activity provides 7.25 AMA PRA Category 1 Credits™ toward Part 2 of the American Board of Surgery Maintenance of Certification Program. Attendees must pass the applicable posttest with a score of 75% or higher in order to earn MOC credit.
