

## PRE-MEETING COURSE

### FELLOWS TRACK

Thursday, May 3, 2018

1:00PM-4:00PM

**Moderators:** Susan Boolbol, MD; Brigid Killelea, MD

**Faculty:** Sarah Cate, MD; Elizabeth Comen, MD; Lisa Curcio, MD; Menena Moran, MD; Ruth O'Regan, MD

#### Course Description

This program, which is being offered free of charge, is designed for breast surgery fellows participating in a year-long multidisciplinary breast fellowship program, as well as residents entering or interested in participating in a breast fellowship. The lectures will provide supplemental information on a number of relevant topics for those about to begin practice, including genetics, genomics, neoadjuvant therapies, clinical trials, adjuvant therapies, and salary negotiation information. No CME will be offered.

#### Criteria for Participation

Participation in the program is reserved for breast surgery fellows participating in a year-long multidisciplinary breast fellowship program and residents entering or interested in a breast fellowship. They must pre-register and provide a letter verifying status from their program director or chief.

#### Course Objectives

Following completion of this course, participants should be able to:

- To provide relevant information to graduating breast fellows who are about to begin practice and residents entering a fellowship program.
- To summarize and strengthen key concepts obtained during fellowship with regard to adjuvant therapy, genetics, and genomics.
- To outline available clinical trials.
- To provide information related to salary and contract negotiation.
