

Giving you more to succeed

Introductory Oncoplastic Techniques teleconference

March 6, 2021

Course description

We're taking our MedEd programs virtual. Whether you are in the office, the O.R. or at home, our team is here for you.

Led by distinguished faculty, this introductory course is intended for general and breast surgeons who want to become proficient in oncoplastic techniques and incorporate them into their practice.

Through live lectures, group discussions and training videos, attendees will be exposed to level 1/beginner oncoplastic techniques including patient evaluation, marking, de-epithelization, oncoplastic lumpectomy and cavity closure, crescent mastopexy, and technique selection.
