

Post-COVID Strategies to Optimize Breast Cancer Care: A Patient-Centered Model

Date

Tuesday, January 26, 2021

Time

7:00 PM EST-8:30 PM EST

Join Advocate Health's Barry Rosen, MD and Memorial Healthcare's Mary Hayes, MD to learn how they uniquely employed SCOUT Radar Localization throughout the patient care continuum and throughout their systems to achieve streamlined, patient-centered care.

Presentation Highlights

- Cost and clinical advantages derived from going Wire-Free
- Reducing patient facility visits through localizing with SCOUT at biopsy & data review
- Clinical utility of SCOUT for Mastectomy and Oncoplastic approaches

**Barry Rosen, MD, FACS**

Breast Team Leader, Advocate Healthcare, Chicago, IL
Managing Partner, Targeted Medical Education (TME)
Assistant Professor of Surgery
University of Illinois College of Medicine

**Mary K. Hayes, MD**

Former Medical Director and Chief of Women's Imaging at Memorial Healthcare System and Envision
