

ASBrS 2026 Regional Course

Course Title: Beginner Oncoplastic Surgery Skills Course with Breast Surgery Simulator Lab

Course Chair: Kristalyn Gallagher, DO

Course Moderators: Carrine Anderson, MD and Kristalyn Gallagher, DO

Course Date: November 7, 2026

Course Time: 7:00AM-11:00AM

Course Description: This prerequisite primer course is designed for general and breast surgeons who have not performed (or do not routinely perform) oncoplastic breast surgery. The pre-recorded lectures will provide information on beginner-level strategies and techniques for delivering oncoplastic breast care related to breast conservation. Participants will complete the didactic lectures prior to arriving on site.

The onsite breast surgery simulator lab will provide a hands-on surgical skills lab for supervised practice of procedures taught in the pre-recorded lectures. Attendees will be assigned to stations to practice photographic documentation, skin markings, aesthetic scar placement, cavity closure with glandular displacement, crescent mastopexy, therapeutic donut mastopexy, and aesthetic flat closure.

At the conclusion of this course, participants should be able to:

Objective 1	Apply beginner-level oncoplastic techniques and strategies into practice
Objective 2	Select the most appropriate oncoplastic procedures for individual patients
Objective 3	Demonstrate familiarity with the latest technology to achieve optimal outcomes in oncoplastic surgery

PRE-RECORDED DIDACTIC PRELIMINARY AGENDA

****Pre-recorded didactics will be sent to attendees prior to the course***

Pre-Recorded Lecture Title	Pre-Recorded Lecture Faculty
Incorporating Oncoplastic Surgery in Your Practice	Sadia Khan, DO
Anatomy, Breast Imaging, and Preoperative Planning	Stephanie Valente, DO
Photographic Documentation	Kirstyn Brownson, MD
Skin Markings and Quadrant by Quadrant	Patricia Clark, MD
Aesthetic Scar Placement and Cavity Closure	Janie Grumley, MD
De-epithelization and Crescent Mastopexy	Amanda Woodworth, MD
Therapeutic Donut Mastopexy	Katherine Kopkash, MD
Mastectomy Tips and Tricks to Avoid Redundancy	Kristalyn Gallagher, DO

ONSITE WORKSHOP PRELIMINARY AGENDA

Workshop Moderators:

Carrine Anderson, MD
Kristalyn Gallagher, DO

Workshop Faculty:

Patricia Clark, MD
Jennifer Gass, MD
Janie Grumley, MD
Michelle Haslinger, MD
Sadia Khan, DO
Sayee Kiran, MD
Katherine Koplash, MD
Tam Mai, MD
Jessica Ryan, MD
Stephanie Valente, DO

7:00 AM-7:15 AM	Welcome, Introductions, Course overview, Pre-recorded Didactic Q&A
7:15 AM-8:45 AM	Breast Surgery Simulator Lab: Photography, Measurements, Marking, Dissection with in Anterior Mammary Fascia, Dual-plane Dissection for Tissue Rearrangement, Crescent Mastopexy
8:45 AM-9:00 AM	Break
9:00 AM-10:30 AM	Breast Surgery Simulator Lab: Donut and Mastectomy with Aesthetic Flat Closure
10:30 AM-11:00 AM	Panel Discussion: Billing, Coding and Case Presentation
11:00 AM	Adjourn
