

THE AMERICAN SOCIETY OF
Breast Surgeons

To whom it may concern:

On behalf of the Society's leadership, I would like to formally invite you to attend the American Society of Breast Surgeons 22nd Annual Meeting, April 29–May 2, 2021. This meeting will feature scientific presentations, commercial exhibits and will focus on the latest research, innovations and practice changing information for breast surgeons.

During these extraordinary times, the Society is committed to connecting you with your breast surgery colleagues. This year's annual meeting will be transformed into an engaging and collaborative virtual experience including creative learning opportunities, the latest updates in breast surgery and entertaining networking events. We have planned a robust program designed to provide cutting-edge education in an interactive virtual forum.

The American Society of Breast Surgeons, the primary leadership organization for general surgeons who treat patients with breast disease, continues its commitment to improve the practice of breast surgery by serving as an advocate for surgeons who seek excellence in the care of breast patients. Our mission is accomplished by providing a forum for the exchange of ideas and by promoting education, research, and the development of advanced surgical techniques.

The Society's educational programs serve the professional needs and interests of our membership and our annual meeting is the premier event in the breast surgery community. The research and education presented at our meetings enhance the knowledge of those who attend, thereby advancing high-quality surgical care of the breast patient.

Detailed information on the program, including registration, will be available online in March 2021 on our website at www.breastsurgeons.org.

If you have any questions, please do not hesitate to contact the Society at (410) 381-9500 or by email at meetingregistration@breastsurgeons.org. Thank you and we look forward to your participation.

Sincerely,

Katherina Zabicki Calvillo, MD, FACS
22nd Annual Meeting Program Chair
The American Society of Breast Surgeons
